COMPOSITION / INFORMATION ON INGREDIENTS**

Component	Percentage	CAS-Number
Acid Blue 009	20%	3844-45-9
Water	80%	7732-18-5

4. FIRST AID MEASURES

IF INHALED	Move to fresh air. Get medical attention if symptoms persist.
IF ON SKIN OR CLOTHING	Wash off with soap and water. Get medical attention if irritation develops and persists.
IF IN EYES	Direct contact with eyes may cause temporary irritation. Rinse with water. Get medical attention if irritation develops and persists.
IF SWALLOWED	Rinse mouth.
General Information	Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

5. FIRE-FIGHTING MEASURES

Suitable Extinguishing Media	Water fog. Foam. Dry chemical powder. Carbon dioxide (CO ₂).
Unsuitable Extinguishing Media	Do not use water jet as an extinguisher, as this will spread fire
Specific Hazards	During fire, gases hazardous to health may be formed.
PPE and Precautions	Self-contained breathing apparatus and full protective clothing must be worn in case of fire. Move containers from fire area if you can do so without risk. Use standard firefighting procedures and consider the hazards of other involved materials.
General Fire Hazards	No unusual fire or explosion hazards noted.

6. ACCIDENTAL RELEASE MEASURES

PPE and Precautions	Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Keep out of low areas. Wear appropriate protective equipment and clothing during clean-up. Do not breathe mist or vapor. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see Section 8.
Containment and Clean-up	Should not be released into the environment. <u>Large Spills:</u> Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Cover with plastic sheet to prevent spreading. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water. <u>Small spills:</u> Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use. Prevent entry into waterways, sewer, basements or confined areas. For waste disposal, see Section 13.

Environmental Precautions Prevent further leakage or spillage if safe to do so. Do not contaminate water. Avoid discharge into drains, water courses or onto the ground.

7. HANDLING AND STORAGE

Handling Do not breathe mist or vapor. Do not get this material in contact with eyes. Do not get in eyes, on skin, or on clothing. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.

Storage Store in original tightly closed container. Store away from incompatible materials (see Section 10).

8. EXPOSURE CONTROLS, PERSONAL PROTECTION

Composure Exposure Limits No exposure limits noted for the ingredient(s).

Biological Limit Values No biological exposure limits noted for the ingredient(s).

Appropriate Engineering Controls Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.

Individual Protection Measures, such as Personal Protective Equipment

Eye / Face Protection Wear safety glasses with side shields (or goggles) and a face shield.

Skin Protection Wear appropriate chemical resistant gloves/clothing.

Respiratory Protection In case of insufficient ventilation, wear suitable respiratory equipment. Respiratory protection not required.

General Hygiene Considerations Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.
